ABOUT READY TO SIGN

Treaty of Peace is Practically Completed.

GOING OVER THE TEXT

THERE WILL BE FOUR ANNEXES TO THE DOCUMENT.

Plenipotentiaries Will Be Unable to Accept Invitation to New York Reception.

PORTSMOUTH, N. H., September 2 .-With the exception of a single portion of the text the "Treaty of Portsmouth" was completed this afternoon at a conference in Baron Komura's room and it is barely possible it can be signed Monday. M. Witte, M. de Martens and Baron Komura and Mr. Dennison began the reading of the text tonight at 9 o'clock. The treaty will not be engrossed by the two caligraphers sent by the State Department. At the last moment it was decided to have attaches of the two missions perform this work. The articles relating to the non-fortification of the Island of Sakhalin and La Perouse straits and the evacuation of Manchuria were settled. Both parties bind themselves not to fortify the island. La Perouse is to be "open" and Japan agrees not to erect works to command the strait.

The article relating to the evacuation of Manchuria provides that the troops, imme-diately upon the exchange of final ratifications, are to be withdrawn, respectively, to the lines of Mukden and Harbin, and the number of "railroad guards" in ordinary times is limited, but provision is made for the dispatch of troops for the protection of the line in case of disorders upon condition that they are immediately withdrawn when their mission is finished.

Peruvian Editorial Comment.

LIMA, Peru, September 2.-The leading daily newspaper here, the Commercio, in an editorial, attributes the peace between Russia and Japan to the singular qualities of President Roosevelt's character. It says that the United States does not desire a war to continue that is threatening its peace and the free development of its trade. and that the experiment just made by Pres-ident Roosevelt had a splendid outcome and undoubtedly will be repeated whenever there is an opportunity.

The clerks, it is stated, did not take kind-

ly to the idea of answering the questions

in the circular, holding that the majority of the questions here upon their private affairs and not upon their relations to the depart-

ment, but as it was intimated those who did not sign would have to resign, the large

majority of the clerks have signed. Several, however, have, it is said, refused to do

so, and have also refused to resign, but are waiting for the powers to dismiss them.

If this is done, it is stated, the matter will be taken to the civil service authorities, on the ground that the discharged clerks have

violated no rule of the department making them liable to removal. Meanwhile the

clerks are awalting new developments with

Today. CHICAGO, Ill., September 2.-Practically every Presbyterian minister in the United States will preach on some phase of the labor question on Sunday as the result of an appeal from the department of church and labor of that denomination, which has its offices in Chicago. Besides these 7,000 Presbyterian preachers thousands in other denominations have taken up the question, so that more labor sermons will be heard on Sunday than on any other day in the history of the church.

to be distributed after the sermons have come to Superintendent Charles Stelzle, so that millions of pages of printed matter will be issued, presenting appeals to both church and labor as to their respective du-ties in relation to this problem. In the fifty cities in which this plan of the exchange of fraternal delegates between the ministers' associations and the central abor unions is in operation special servces have been arranged. In many cases the labor unions of these cities have voted to attend in a body the services conducted by the ministerial fraternal delegates.

PENSACOLA, Fla., September 2.-One new case of yellow fever developed here today within the infected district and within two blocks of where the first case was discovered. The patient had been considered a suspicious one for several days, and to-night Dr. Guiteras stated that it was a very pronounced case. This makes six cases which have developed here within the past four or five days. Dr. Guiteras will leave here Sunday morning for Havana.

VALDOSTA, Ga., September 2.—The mayor and council held a special meeting to-night for the purpose of establishing a rigid quarantine against Pensacola, New Orleans and all of the fever infected places. The quarantine becomes effective tenight.

The Atlanta Case.

Atlanta is not regarded as infectible territory for yellow fever by the public health and marine hospital service, and no spread of the disease there is anticipated. This view is based on the experience of the past, as cases of the fever have several times appeared in Atlanta, but have never pro-duced a new case. Surgeon General Wyman said last night

he had received a report of the case de-veloped there yesterday from Surgeon Wer-
